OTHER QULAIFICATIONS

2016	**Dynamic User Experience: Ajax Design and Usability**, Interaction Design Foundation
2014	**Grade 5 Music Theory**, Associated Board of the Royal Schools of Music, London (ABRSM)

EXPERIENCE

DECEMBER 2020 – MARCH 2021	**Contract Software Engineer, Polaris Bank Ltd.**, Victoria Island, Nigeria.
	workings of the interaction between Polaris bank and NIBBS for inward and outward transfers to the bank.
	Review of system architecture, integration and performance.
	Review of the transaction status response code to reduce ambiguity
APRIL 2019 – FEBRUARY 2020	**Software Engineering Consultant, "Cervitech" Mobile Application**, University of Lagos, Akoka, Nigeria.
	This project involves the building of a mobile application that monitors the neck angle of a user relative to the position of the phone while in use. This application makes use of the phone accelerometer and gyroscope to calculate the tilt angle of the phone. It also sends regular push notifications to the users on how they have improved over time with the use of the application. The user can also set daily average neck angle goal. The mobile app can be downloaded via this link: https://www.cervitech.com.ng/ *Supervised and managed other software developers and also worked as the lead backend developer.*
DECEMBER 2017 – APRIL 2018	**Senior Software Engineer, Information Technology Department**, **Wallets.Africa,** 8b Close C, Hillview Estate, Ogudu GRA Lagos, Nigeria.
	Wallets Africa (www.wallets.africa) is a digital financial platform building Africa's foremost borderless digital financial platform for a new generation of Africans and visitors to the continent. *Co-designed the database architecture and also built robust backend services that handle user managements and payment transactions. Integrated different payment gateways like Quickteller and Flutterwave on the platform to process payment. Implemented Barter Cards services to manage virtual dollar cards for consumers. Handled deployment of services on Microsoft azure machines.*

| JANUARY 2015 – MAY 2017 | **Software Engineer, Information Technology Department**, **SureBids Ltd**, Alma 2 Unit 2, Richmondgate Estate, Lekki, Lagos. |

SureBids is a retail voucher aggregator and provider in Africa. It is the first coordinated effort to introduce retail vouchers in Nigeria, with the focus on ease of redemption and simplicity.
Worked in a team that developed and managed the following products for the company:

- ***SureGifts*** (*www.suregifts.com.ng* / *suregifts.co.ke*) *– is a platform for buying gift cards, egift cards & vouchers for birthdays, Christmas, valentine etc.*
- ***SureGifts Businuess*** (*www.business.suregifts.com.ng*) *– a platform for corporate gift cards, rewards and loyalty for businesses.*
- ***SureRemit*** (*www.sureremit.co*) *– a platform for sending voucher, paying bills, mobile airtime top-up etc.*
- ***SureCredit*** (*www.surecredit.co*) *– a voucher financing platform for employees of selected companies*
